BLACKWOOD.

SAD DROWNING ACCIDENT.

—On Monday last a number of the settlers
were working upon a dam in this vicinity,
when the team of Mr. John Sample got into
the water, which was fourteen feet deep.
Mr. Sample rushed into the water to save
his horses, but both the team and he were
drowned. Mr. Sample was highly respected,
and his death has cast a gloom over the
whole community.

INDIAN HEAD.

FARMERS' ATTENTION.

—A public invitation is hereby given by
the President of the Indian Head Agricul-
tural Society, with the kind permission of
Managers, to farmers and others interested
in Agriculture, to visit the Experimental
Farm on Tuesday afternoon, July 22nd,
when they will have an opportunity to profit
by the ideas of others, discuss matters of
general interest and the prospects of the pre-
sent season, etc. The manager will be
pleased to explain the various experiments
tried, with their results, to any enquirers.
Do not miss this chance of seeing a profit-
able half-day, to meet old friends and make
new ones; a few hours so spent may win
many dollars to you. Come and see
what can be raised by painstaking and per-
severance combined with judgment. A Bi-
sectoral meeting will be held at eleven
o'clock and adjourn to the Farm at 4 p.m.,
when they will be pleased to meet all inter-
ested parties.

SINTALUTA.

—Mrs. E. Mitchell left on Saturday on a
visit to her friends south of Grand R. She
will return in the course of a week.

—Mr. H. Rowe's lively stable is fast ap-
proaching completion. There is only the
roof to put on and the inside to fit up. It
will accommodate eight teams.

—We are sorry to hear that we are going
to lose one of our most popular settlers in
the person of Mr. S. Payne. He left here
for Brandon a few weeks ago, and his wife,
who will be greatly missed, will join him in
a few days.

WOLSELEY.

—Wolseley municipal council
met on Friday last. The minutes
will appear next week.

PUBLIC SCHOOL.

—Standing of pupils at end of term June
30th, the three first names in each division
are in the order of merit. The others have
averaged fifty per cent.

—Standard VI. Percy Bray, Robt. Taylor,
Standard V. Ernest Flesch, Charles
Bray, Winnie Campbell, Corrie Thompson,
Edwin Bray, Barton Campbell, Lyle Suttler,
Jack, George Grant, Deba Bider, Bruce
McMinn, Herbert Hark, Katie McMinn,
—Standard IV. Laura Bray, Bertie Bunkley,
Frank Grant, Bella Robinson

—Standard III. Edna Nunnings, Bryon
Bray, John Ellis

—Standard I. Edie Ellis, Ida Gillespie,
Robt. Branch Campbell

—Inspector Pathin in his report says: "I
have examined with the greatest satisfaction
the classes in this school and find the pupils
remarkably well educated. It is due to
Mr. McMinn to say that I have inspected
no classes in my district that have done
better work. The order and discipline are
first class."

SUMMERHILL SCHOOL.

The following shows the standing of the
pupils in their respective classes during the
month of June:

FOURTH SEN.—1st, Maggie McDonald;
FOURTH JUN.—1st, Bettie Dymes; 2nd,
Mary Fleming

THIRD SEN.—1st, Wesley Dymes; 2nd,
Barbara McDonald; 3rd, Jas. Laidlaw

SECOND SEN.—1st, Bertie Fleming; 2nd,
Maggie Mitchell; 3rd, Andrew Laidlaw; 4th,
John Mitchell; 5th, Ernest McGregor

WHITEWOOD.

—Julius Vass is distributing poplar
traps to any settler requiring them.

—The police have changed their quarters
to a house further south, on Lalonde street.

—There is every promise of a fine crop of
hay this year, but will be late, possibly
after harvest.

—Mr. Warren has come back from British
Columbia. He reports that the crops there
are about being harvested.

—There is an abundance of vegetables
everywhere. Green peas are on the market
this week, also early turnips.

—Quite a number of families arrived here
this week in search of suitable homesteads.
It is likely that some will locate to the
south of here, near the Pyggon.

—The crops throughout the whole dis-
trict are looking splendid. Never within
the memory of the oldest settlers has there
been such a marked growth as during the
last three weeks. Hay is well headed out
and in a few places the wheat and oat
crops are in the qu'Appelle valley.

PHEASANT FORKS.

—The field meeting connected with the
Methodist church was held last Sabbath.
There was a large gathering and good ser-
vices. Messrs. Backler, H. Teese, Allan
and Amy and the Rev. W. Clague were the
speakers.

—Mr. H. Teese, Senr., had a valuable
man taken sick on Sunday morning last,
and though the whole day was spent in
earnest endeavours to alleviate her pain,
there were of no avail, and about four o'clock
in the afternoon she died. She had a fine
calf by her side.

—The picnic held here on the first inst.
was quite a success. It was held in the
neighbourhood of the cheese factory.
Nearly everyone went over the factory, and
were greatly interested in the process of
cheese-making. The universal expression
of opinion was, that we have not a good
building and plant, and that the thing is
bound to be a success. Shipments of cheese
have already commenced.

MOOSE JAW.

—On Tuesday evening last Mr. Henry
Battel and his child and one of Rev. Dr. Mc-
Lean's children were killed by lightning,
which struck a house they were in, three
miles from Moose Jaw.

REGINA.

—The bachelors won from the benedictines
in a ball game, called at the end of sixth
inning on account of half, this afternoon by
a score of 20 to 9.

—A few days more will complete the
brick work on the Smith & Ferguson com-
pany's handsome three story block. On
Baker's building, opposite to the former, the
brick work is about half done.

—Trick is being placed on the site next
to the Palmer House on South railway, for
another large brick block. It is to be a
double one, and Messrs. A. D. Ferguson and
B. H. Williams are the capitalists erecting
it.

—A phenomenal hail storm was experi-
enced on Saturday evening. The stones
were fully half as large as hen's eggs. The
shower was not accompanied by wind, con-
sequently no great apprehension is felt for
the crops.

—Mr. C. Hays is building a cottage on
Broad street, and Mr. Ross, the carpenter, is
building a two story residence on Oiler
street. Work on Mr. Eddy's double house
on Twelfth avenue is pushed. Mr. Neil Mc-
Lean also is building a commodious residence
in the west-end. Many of our residents are
this summer adding storeys to and other-
wise improving their houses.

MEDICINE HAT.

—The bi-centennial of the Battle of the
Boyne will be celebrated here by a picnic in
some of the groves near the town.

—There has been a large amount of rain
here this season, and as a consequence
grain and root crops are looking excellent.

—A sad drowning accident occurred here
on the 27th inst., when a boy fourteen years
of age lost his life. Several boys were
bathing when the current, which is strong
and treacherous, carried him beyond his
depth and he was lost. The body has not
yet been recovered.

—Mr. H. Fogg and family left for Win-
nipeg on the 26th inst. Mr. Fogg has resided
here for some time and has proved himself
a good and kindly neighbor. The evening
before his departure Mr. McNaught, on behalf
of a large number of friends, presented him
with a well filled purse as a token of their
respect and appreciation.

—The public school closed on the 30th ult.
for a two months' holiday. The principal,
Mr. W. Sharp, will spend his holidays here,
but Miss Smith, first assistant, intends
spending her vacation at her home in Mon-
treal. A high school entrance examina-
tion was held here last week for the pur-
pose of establishing a high school at this
point.

—Several settlers from Danmore and Cen-
tral Hills districts were in town lately, and
report very favorably. Nearly all the grain
is headed out and harvesting is expected to
commence the latter part of this month.
Green peas, cannelions, etc., of excellent
quality, are being supplied by gardeners.
Kamuchens report favorably, as both the
quality and quantity of grain is exceptionally
fine.

—A picnic under the auspices of L. O. O. F.
was held at Pikes Point on Dominion Day.
The picnic ground, about a mile and a half
from the town, is a beautiful spot. It is
surrounded on three sides by the Saskatchewan
rivers, having large shady trees, interspersed
with copse, bunches of rose bushes and
beautiful grassy lawns. Those who have
had the pleasure of visiting Fraser's Grove,
near Winnipeg, can have a very fair idea of
this point. It requires a very small stretch
of the imagination to fancy your grove filled
with large and umbrageous cotton-wood
trees, and the picture is complete. A re-
freshment stand for the thirsty, a dancing
platform for the gay, games for the athletic,
and long tables loaded with good things for
all, were the more important attractions of
the picnic. Nearly all the town was there,
beside numbers of others from points east
and west of here, all bent on a day of pic-
nics and celebration combined.

MR. ALVA YOUNG.

of Waterford, Ont., writes: "My baby was
very sick with summer complaint, and
I was told to buy Dr. F. W. Ross's
Little Kidney and Bladder Pills, which
I sent him at once. It is one of the best re-
medies I ever used."

LETHBRIDGE.

—The sinkers have got down to the coal
in No. 2 shaft. The engine and boiler have
arrived for the same. A large staff of car-
penters are at work forming trestle work
to connect with the shaft and for conveni-
ence in loading the railway cars and teams.
A large quantity of stone has been quarried
and hauled for the foundation of engine and
boiler beds and houses of the shaft.

—The railway and coal company have let
out contracts to build houses on the acre
lots set apart for the employees of the com-
pany. The houses and lots are to be ob-
tained by the employee of the company
from the company on the following terms:
Cost of house and lot from five to six hun-
dred dollars, on a rental purchase of \$12 a
month at 6 per cent per annum interest,
the house and lot becoming the property of
the employee when principal and interest
are paid.

CRICKET.

QU'APPELLE V. INDIAN HEAD.

This match, played at Qu'Ap-
pelle on Wednesday, July 9th, re-
sulted in a great victory for the
home eleven. The visitors went in
first, and in less than an hour all
the wickets had fallen for 22 runs.
Williams and Courbarron, the bowlers,
were in very good form. After
lunch Qu'Appelle went in and put
together 103 runs. A McLaren
making a splendid stand and getting
28 runs. Indian Head then went
to the wicket, with 81 to make to
equal their opponents' single score.
R. C. Barwell played a very good
game and scored 22, but the rest of
the wickets fell for small scores, and
all were out for 48, making a total
for the two innings of 70. Qu'Ap-
pelle winning by an innings and 33
runs. Again Williams' bowling
was excellent, only 11 runs being
made in his 13 overs, while 6 of the
wickets fell to the same. The score
was as follows:

MR. JESSE JOHNSON.

of Blackwood, Ont., writes: "Last fall I
had boils very bad and a friend advised me
to try Black Hitters. I got a bottle and
used it. It was wonderful, half the bottle
cured me. A more rapid and effectual cure
does not exist."

—One of the most affecting features in a
life of vice is the longing, wild outlook
given by the wicketies who struggle with un-
tethered passion towards virtues which are
no longer within their reach. Men in the
tide of vice are sometimes like the poor
creatures swept down the stream of mighty
rivers, who see people safe on shore, and
trees and flowers, as they go quickly past,
and all things that are desirable seem open
to them for a moment to lighten their trouble,
and to aggravate their swift onward destruc-
tion.—Young Men's Christian Magazine.

MOTHERS AND NURSES.

All who have the care of children should
know that Dr. F. W. Ross's Little Kidney
and Bladder Pills may be confidently depended on
to cure all summer complaints, diarrhoea,
dysentery, cramps, colic, cholera infantum,
cholera morbus, croup, etc., in children
or adults.

'AN INVESTIGATION.

Mr. Fred. White, the Comptroller of the Northwest Mounted Police is on his way to Regina to investigate the charges preferred against the Commissioner, Mr. L. W. Herchmer. An opportunity will thus be afforded those who have been so loud in their denunciations of the head of the Police of proving their statements. No doubt a thorough investigation will be held so far as the evidence that may be brought before Mr. White will make it possible, and it is desirable that there be the widest publication of the enquiry being held, in order that all complaints may be heard and no room left for anyone to say they did not know about it. In view of the reckless assertions made by some of the newspapers of the Territories, it is right and proper that an investigation has been ordered. It will give the editors of those papers an opportunity of proving their assertions. We believe the inquiry will result in benefit to the Commissioner of the Police, and that the charges made against him will all prove to be big fizzes. It is to be regretted that the men who have denounced Mr. Herchmer's management of the Police force cannot be compelled to come forward to prove their statements, though the cost of a commission possessing such powers was not warranted by the circumstances. We do not hesitate to predict that many if not all of Mr. Herchmer's traducers will sink into silence, and take advantage of the voluntary nature of the inquiry to sneak out at the back door, and when Comptroller White makes his report, and it is published months hence, relying upon the forgetfulness of the general public, they will perchance accept or reject the results of the investigation, just as the fleeting fancy of the time may seem to dictate. Some of those same newspaper editors have misrepresented THE PROGRESS by stating that this journal was the only paper in the Territories opposed to an investigation. That would be inconsistent with our contention that the charges against the Commissioner are false, firmly believing which we could only desire the investigation to be held in order that our contention might be proved to be correct.

—For the work that comes of the mind, no taste of alcoholic stimulation is necessary. Every such taste is a self-inflicted injury, and what is more, an accumulated injury. The dose of alcohol which spurred the thought of to-day must be slightly increased to spur the thought of to-morrow. So on and on the evil goes, until at last the simple, and as it was called, the harmless dose, rises to the poisonous dose; until with unnumbered limbs, faltering memory, dulled imagination, estranged feeling, enfeebled reason, the victim falls. Of all men, brain workers are the men least able to bear up against the ravages of alcohol. I hold that man as prone to be injured on the ground of temperance as I hold that man as criminally mad who knowingly practices alcohol on this foundation. From the beginning to the end of its influence it exalts reason and sets free passion.

—Dr. W. B. Richardson.

MUNICIPAL CONVENTION.

At the municipal convention called to be held at Indian Head on the 4th inst., there were present: L. D. Keown and R. Chappell, Moosomin.

W. M. Thomson, T. Murray and G. S. Guernsey, Fort Qu'Appelle. L. Thomson, Wm. Findlay and A. T. Fotheringham, Wolsley. A. M. McLane and J. R. Bunn, South Qu'Appelle. Wm. Braithwaite, Isaac Powell and Thos. E. Donnelly.

On motion of L. Thomson and T. Murray A. M. McLane appointed chairman and Geo. Thompson, secretary.

Three sessions were held—morning afternoon and evening. Rigs were provided by the Indian Head municipality to drive the delegates around the experimental farm, which was visited at 10 o'clock.

The following resolutions were brought before the convention.

Moved by G. F. Guernsey, seconded by T. Murray, that officer in sec. 23, sub-sec. 2, be more clearly defined, and to draw attention to the fact that under that sec. Postmasters of country offices and Justices of the peace might be disqualified, which would be a hardship.—carried.

Moved by Findlay and L. Thomson, that sections 24 and 25 be amended by striking out the word "last" when it occurs and inserting the word "first" therefor.—carried.

Moved by Findlay and L. Thomson, that in the opinion of this convention it would be advisable to add the following clause to section 26, "provided that when a municipality is divided into wards the mover and seconder shall be assessed for property in the ward for which such nomination is made."—carried.

Moved by L. Thomson and J. R. Bunn, that sec. 30 should be so amended that municipalities should have the option of shortening the time during which the polling places should be kept open, to the time between 10 a. m. to 4 p. m.—carried.

Moved by Findlay and L. Thomson, that sub-sec. 14, sec. 43, be amended by adding thereto "and the Dep. Returning officer shall attach such certificate to voters list."—carried.

Moved by A. T. Fotheringham and Mr. Findlay, that sec. 62 be so amended as to clearly state whether mileage is to be allowed members of council to and from the place of meeting.—carried.

Moved by Braithwaite and Powell, that the word "Eight" in sec. 65 be struck out and "Twelve" inserted.—Lost.

Moved by A. T. Fotheringham and L. Thomson, that in the opinion of this convention a clause should be inserted in the ordinance authorizing councils to exempt personal property to an amount not exceeding \$500, should they deem it expedient.

Moved by Wm. Thomson and T. Murray, that this convention deem it expedient that heads of Municipal councils should be ex-officio Justices of the peace.—carried.

Moved by Mr. Findlay and A. T. Fotheringham, that sec. 75 be amended by striking out the words "a majority" when it occurs and inserting the words "any two members."—carried.

Moved by A. T. Fotheringham and Mr. Findlay that sec. 91 be amended by adding thereto the following "and when collected placed to the credit of the respective school districts."—Lost.

Moved by G. F. Guernsey and L. Thomson that sec. 98 be amended by adding the following "which if not performed to be charged against such property at the rate of \$1.00 per day in addition to all other rates."—carried.

Moved by L. Thomson and G. F. Guernsey, that sections 100, 101, 102, and 104, be struck out.—carried.

Moved by J. R. Bunn and L. Thomson that sec. 107 be amended by striking out the word "registered."—carried.

Moved by G. F. Guernsey and Braithwaite that the Legislative Assembly make the annual assessment optional with the council of any municipality as required by sec.

63, 105 and 106 of municipal ordinance.—carried.

Moved by G. F. Guernsey and T. E. Donnelly that sec. 219 be amended by prefixing the words "subject to the orders of the council."—carried.

Moved by Wm. Thomson and T. Murray that the legislative assembly give Treasurer power to sell lands for arrears of taxes prior to 1889.—carried.

Moved by R. Chappell and L. D. Keown, that sec. 277 be amended so as to clearly define whether Town municipalities can imprison for default of payment of Poll Tax.—carried.

Moved by Mr. Thomson and T. Murray that the Legislative Assembly define what is meant by "resident" and "nonresident" as they appear throughout the municipal ordinance.—carried.

Moved by Mr. Findlay and A. F. Fotheringham, that the chairman and secretary be and is hereby appointed a committee to draft a memorial to accompany the foregoing resolutions and forward the same to his honor the Lieut. Governor and Legislative Assembly.—carried.

Moved R. Chappell and L. D. Keown that the members of this convention express their thanks to the council of Indian Head as well as to Mr. McKay, Manager of the Experimental farm here, for the manner in which they have been entertained.—carried.

A LADY SENIOR WRANGLER.

The cause of the higher education of woman has had a notable service done it by Miss Philippa Fawcett, a quiet young lady student of Newham College, who has become the Senior Wrangler of Cambridge University, the highest possible honor of that educational institution. The examination is a most severe one; yet Miss Fawcett took a high percentage in all subjects and easily distanced the nearest male competitor. She is the first lady Senior Wrangler of Cambridge, though an almost equally great achievement for women was the standing taken in the Classical Tripos some years ago by Miss Mansay, now the wife of Mr. Butler, the master of Trinity College.

Nor is it in Cambridge University alone that lady students are distancing the "lords of creation." While the two cases cited above are the most notable of the scholastic achievements of woman, the same results on a less distinguished scale are going on in every educational institution which believes that woman have minds capable of being highly educated and opens its doors to them. Toronto University has many ladies' names on its honor list; and even in our own University we have only to go back to the convocation for an instance of a lady student carrying off first-class honors.

These are hard facts for the conservative minded people, not yet extinct, who believe in the mental inferiority of woman. The opposition to higher education was, and is, based mainly on what some are pleased to call the stern laws of nature, that the female mind lacks the scope and strength of the male; and that even if woman had the mental vigor they would break down under the strain of hard study. From these postulates they reason that woman should not venture beyond elementary studies; they should bow willingly to the fact of inferiority; and not subject themselves to the folly of a hopeless competition. These theories, the experience of the past decade has cast much doubt upon; Miss Fawcett's achievement promises to complete their demolition. If there is a study which might be claimed to be masculine, it is mathematics; in its higher branches it requires a singularly strong and acute mind, capable of working at high pressure, for long stretches, and this in turn involves physical strength. Cambridge is far excellence the university where the greatest attention is paid to mathematics; and Miss Fawcett's emphatic triumph in the face of such competition as she must have been subject to demonstrates conclusively that even in this field

of study men have no natural advantages over their sisters.—Free Press.

—The Empire's Ottawa correspondent says: "The report that negotiations in the Behring Sea question have been broken off at Washington causes no surprise here. A great many Nova Scotia vessels and seamen have recently gone to the Pacific to engage in seal fisheries, hence every movement on the question is subject to deep interest to us. There is a general feeling here that the question ought to be settled promptly, and it can be only effectively settled in one way." The way proposed is to retake the captured sealers, and thus matters might be brought to a crisis by the sealers arming and forcibly resisting all interference from American revenue cutters on the high seas; but this would necessitate the presence of a British fleet to maintain order. It is reported that orders to the Pacific squadron to retake all captured sealers will be a most effective settlement of the question, and the only one satisfactory to Canada. A prominent public man being asked by your correspondent if such heroic measures would not result in war, replied, "I think not." The United States position on the question is entirely untenable. They would never undertake to fight for such a cause. All that we have to do is to maintain our rights and when the Washington authorities see that the British mean business, and can no longer be humbugged, they will quickly abandon their preposterous contentions.

REGINA PRESBYTERY.

A regular meeting of this Court was held at Moosomin on the 8th inst.

Mr. J. M. Douglas was appointed Moderator for the ensuing year.

Prince Albert congregation was granted leave to sell a portion of their church property.

An application for assistance in building churches on Mooseport's and Pasqua's reserves was referred back to Mr. Moore with instructions to apply to the Church and Manse Board.

The Assembly having granted the Presbytery leave to hold Mr. Archibald Matheson trial for license and ordination, the Examining Committee was instructed to assign subject for trial, to be given in at the next regular meeting, which is to be held at Fort Qu'Appelle on the 2nd Wednesday of September next.

Mr. Giddies was appointed to dispense ordinances at Alameda and Weylaw, Mr. McMillan at Green Valley, Mr. Hamilton at Sandstone, Mr. McKay at Broadview, Mr. Ferry at Grenfell, Mr. Douglas at Weylaw, Mr. Moore at Long Laketon, Mr. Carmichael at Cascade, Mr. Taylor at Buffalo Lake, Mr. Robertson at Touchwood. The Superintendent of Prisons was asked to attend to the same duty at Saskatoon, Keston, Colleton and Prince Albert.

The standing committees for the ensuing year were appointed as follows: Foreign Missions: Messrs. H. McKay (Convener), Robson, Campbell, Moore, Matheson and A. McDonald; Home Missions: Messrs. Douglas (Convener), Hamilton, Carmichael, Robson, Matheson and McDonald; Sabbath Schools: Messrs. Ferry (Convener), Robson, A. B. Smith, C. J. Atkinson, R. Crawford and W. Rothwell; Sabbath Observance: Messrs. McMillan (Convener), Hamilton, McDonald and R. B. Thompson; Temperance: Messrs. Robson (Convener), Hamilton, McMillan, Harvey and A. T. Fotheringham; Examination of students: Messrs. Campbell (Convener), Carmichael, Hamilton, Douglas, Geddes and Robinson; State of Religion: Messrs. Carmichael (Convener), Bryden, Douglas, Matheson and Matherwell; Manitoba College: Messrs. J. M. Douglas (Convener), Campbell, McMillan, Robson, Crawford and J. J. Campbell; Statistics and Finance: Messrs. Hamilton (Convener), Robson and Angus McKay; Systematic Benevolence: Messrs. Campbell (Convener), Ferry, Robertson (Whitehead) and McKenney (Moosomin).

Messrs. A. B. Smith and L. Robertson were appointed assessors for Catholic Section.

Session records were examined and ordered to be attested.

In the evening addresses were given by Mr. Hamilton on Higher Religious Instruction, by Mr. Campbell on Indian Missions, and by Mr. Taylor on Home Missions. Mr. Taylor handed in his resignation as pastor of the congregation at Moose Jaw. It was decided to urge the congregation to appear at a meeting of Presbytery to be held at Moose Jaw on the 18th inst., until which time the Presbytery is adjourned.

It is said to be possible to restore one who is helplessly intoxicated to the almost complete use of his faculties in a very short time by administering to him a half teaspoonful of ammonium chloride in a tumbler of water.

—Mr. Gladstone has been understood as in favor of a restricted sale of intoxicating liquor in England, but in the House of Commons he sustained Sir Wilfrid Lawson in his opposition to the licensing question. Sir Wilfrid said: "The country had hitherto persecuted men who killed enemies of the nation. The bill under discussion would punish those who were daily active in killing their fellow countrymen. Mr. Gladstone gave the Government advocate credit for sincerity in desiring to lessen the evils of the liquor trade; but he said the means proposed were utterly futile and extremely dangerous. Public opinion is fast rising against the liquor traffic, and the liquor party should remember the power of that opinion to overthrow them."

—A fellow-citizen threw a handful of wild cherries steeped in brandy out in his garden the other day and was surprised to see his chickens pecking at the fruit, says the St. Louis Republic. More surprised were the cacklers themselves, when, for the first time in their lives, they needed more than two legs to stand upon. The hens looked foolish enough, but the most comical sight was a big Brahama rooster, who would side up to the hens, make a dash for a few of the cherries, and then, when he found them to be brandy, he would look dignified, blink a few times, when his head would sink lower and lower, till over he would fall and after a struggle he would get up again and go off with a side wheel motion, for all the world like a lord of creation under similar distressing circumstances, but this time his fall was in favor of the shanghai—he did not know any more of a fool of himself.

THE MILLIONAIRE PART OF A RISK.—When but a child I noticed that the belle of a Christmas party shook her head smilingly when cognac was passed to her, and that her attendant followed her example in declining it. I also heard the explanation of her singular conduct, given subsequently to her girlish companions: "They say that El Taylor is trying to locate his fortune in wine, and I have no shadow all the evening, you know, and of course it would do for him to accept what I had refused. Moreover, girls!" "Certainly," I made up my mind never to drink so much as a class. I have with a young man again! I will not lose the thousand part of a chance of saving a tempted soul, or take the millionth part of a risk of running one!"—The House Maker.

SIXTEEN UGLY SORES.

Inflammatory rheumatism through wrong treatment left me with stiff joints and ugly running sores on my limbs, and for seven years I could not walk. When I commenced taking Buckle's Kidney & Bladder I had sixteen sores, but they are all healed, save one and I can now walk with crutches.
